RELIGIOUS

Preaching at Springfield Presbyterian church next Sunday afternoon at 2:30 o'clock.

Rev. Lloyd Darle, of Buffalo, N. Y. has accepted the pastorate of the Paris Christian Church. He is half brother to Rev. Geo. Darle, of Frankfort.

Preaching at the Southern Presbyterian church Sunday morning and evening by pastor. Prayer-meeting this afternoon at 2 o'clock.

Rev. M. P. Hunt, one of the first Baptist preachers of the state, has resigned the pastorate of the 23rd, and Walnut street Baptist church, Louisville, to become pastor of the 1st Baptist church, of St. Joe, Mo.

Rev. A. P. Finley has accepted the pastorate of the Christian Church at West Point, Miss. He writes that it is a beautiful town. We regret to lose him from Ky., and wish him much success in his new home.

The members of the C. W. B. M. of Winchester, have forwarded to the school at Hazel Green under the auspices of that organization, a box of bed clothes etc., to take the place of those burned recently when the dormitory of that school was destroyed by fire.

"Now, boys," said a Sunday School teacher addressing the class composed of a half dozen bright boys at a certain popular church last Sunday morning, "who can tell me why St. Peter is always standing at the pearly gates?" Instantly one little fellow answered: "Maybe he's tain't for them guys who robbed him to pay Paul's"—Ex.

"Well, that's enough to try the patience of Job," exclaimed the village minister, as he threw aside the local paper.

"Why, what's the matter, dear?" asked his wife.

"Last Sunday I preached from the text, 'Be ye men steadfast,' answered the good man, "but the printer makes it read, 'Be ye there for breakfast.'"

The attendance at the Christian Church on last Sunday was large (as usual). The pastor reminded the congregation of the fact that services began at 10:45 and not at 11 o'clock; that the introductory song is the part of the worship, and not a part of the service; that the singing is a part of the worship, and not a part of the service; that the singing is a part of the worship, and not a part of the service.

It must be a church which—

(1). Uses no force to perpetuate it.

(2). Is a divine institution and not human.

(3). Looks to the Lord Jesus Christ as the author and finisher of the faith.

(4). Is intelligent in the word—

(5). Is devoted to the ordinances and worship.

(6). Has a mighty concern for the salvation of souls.

FORCIBLE FACTS.

One-sixth of the deaths from disease are due to consumption. Ninety-eight per cent of all those who have used Dr. Pierce's Golden Medical Discovery for "weak lungs," have been perfectly and permanently cured. Cornelius McGowry, of Leesburg, Armstrong Co., Pa., had in all eighty-one hemorrhages. He says: "My doctor did all he could for me but would not stop the hemorrhages and all gave me up to die with consumption." What doctors could not do "Golden Medical Discovery" did. It stopped the hemorrhages and cured my case. This is one out of thousands. Investigate the facts.

Frer. Dr. Pierce's great work. The People's Common sense Medical Adviser is sent free on the receipt of stamps to pay cost of mailing only. Send 21 one cent stamps for paper covered book, or 31 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

A Curious Case.

Several years ago Pineville sent her underling in the attempt to find enough citizens to be classed as a fourth class city. In 1891 the city was authorized by the Legislature to issue bonds which she did to the amount of \$25,000. The interest was paid for three or four years after which the city defaulted. The bondholders brought suit and the City Council retaliated by cutting down the town limits of the city until all that was left was the Courthouse and the residence of the City Judge. The bondholders have brought suit to have this ordinance declared invalid on the grounds that it is fraudulent and done with the sole purpose of defeating the creditors of the city.

Up-to-Date.

Last Saturday the Guthrie Clothing Company concluded they would offer the trade some inducements as a manifesto of appreciation of the enormous trade they have been favored with the past year. They therefore made a bargain table consisting of the attractive broken sized articles of the house, and sent out bills, giving notices of same. It had its effect. The people crowded in, all day Monday and seeing the advertisement was no fake, spent their money freely, carrying away many bargains. The proprietors advise us that they had a real, in season, day and that their bargains will continue before the trade from day to day.

A WOMAN'S POCKET.

On the train a lady wished to buy some lace. Modestly she told the fruit by that she would see him as he came back through the car. Then she proceeded to get her pocket-book from the top of her stocking. Safe place it is, but we would suggest the advisability of ladies having at least "one" pocket in every dress. (The writer has only "eighteen" in his suit.)

Recently he was on the train leaving Winchester. A prominent lady friend from Paris came in. He greeted her and showed her a seat and engaged in conversation. "Tickets" The ticket puncher came along. She appeared to blush as she went for her ticket in the top of her stocking.

The writer stood by his ground, the ticket puncher passed by, and the conversation was pleasantly resumed, and the conviction that ladies should have pockets was strengthened.

At another time, something will be said about "short skirts" for ladies.

After seeing the sights at Glencross and increasing the output of the Advocate Pub. Co., he came via Winchester to resume duties at home.

DROPPED PARTY LINES.

Anti-Gebel Resolutions Passed in the Kentucky House After a Long Debate.

Frankfort, Ky., Jan. 20.-The house Friday afternoon after long debate passed Mr. Orr's (anti-Gebel dem.) resolutions instructing the contest committee in the case of governor and lieutenant governor to take all the time necessary in order to arrive at a full, fair and just conclusion, and to hear all of the evidence of both sides. This resolution was brought forth to meet the complaint of Gebel's attorneys that the interference of outside events had cut off much of their testimony. In the debate on the floor Gebel and other Gebel leaders opposed the resolution, but a large number of democrats broke away from party line and the resolution finally passed by a vote of 70 to 14.

Bills were introduced as follows: Regulating sanitary conditions in factories and prohibiting minors under 18 working in any factory or shop where an enemy wheel or other means of polishing is employed; free library bill. It provides that the council in cities of the third, fourth, fifth and sixth class shall levy a tax not to exceed 10 cents on \$100 for the maintenance of said library; prohibiting trading stamp companies.

In the senate Mr. Carter presented the report of the judiciary committee on the resolution of Senator Howard for preferring charges of disqualification against the three senate members who are sitting on the committee trying the contest for governor and lieutenant governor.

Senator Howard objected to the report being filed. Carter said the other side was playing for delay. He demanded a vote. The result was a tie, and Lieut. Gov. Marshall voted with the democrats to take up the report at once. The report was then read. It says there is no foundation for the charges in the Taylor and Marshall affidavits.

The senate adjourned without reaching a vote on the report.

CONTEST ARGUMENT.

Thousands of Witnesses Summoned to Testify Before the Investigating Board at Frankfort.

Frankfort, Ky., Jan. 20.-The reading of the court's statement of the republican parties to the gubernatorial contest, arguments over the inadmissibility to strike it partially out after its admission comprised the work of the contesting boards and the last mentioned arguments were not concluded when an adjournment was taken.

The democratic attorneys made a determined fight against the admission of the contest claim, saying that it covered so much ground and so many different counties in the state, that it would be impossible for them to prepare evidence to controvert it in less than three months. After it had been presented they declared they would make no attempt to offset the allegations because of the physical impossibility of bringing to Frankfort the great number of witnesses necessary for the operation.

Exterior Bradley in asking the board to grant him as much time as possible announced that the republicans had subpoenaed 2,700 witnesses.

CHARGED WITH MURDER.

Owensboro, Ky., Jan. 20.-"Jim" Nichols, Fred Nichols and Richard Hathaway, all colored, were arrested here on the charge of murdering Charles Bailey, also colored, on January 9. Bailey was reported by those under arrest as having died of smallpox at the home of "Jim" Nichols on the night of January 9, but he was well and worked on the 10th. The three under arrest, it is charged, buried Bailey on the night of the 10th. The remains will be taken up and an autopsy held to see if marks of violence can be found.

USED THE SHAKEDOLLER.

Paducah, Ky., Jan. 20.-A. L. Brand and C. J. Whitmore, of Nashville, Ky., have sued Charles Reed, of the Palmer house, for \$200 which, as stakeholder, he turned over to a man who bet Whitmore and Brand that Taylor would be the next governor. The plaintiffs are Gebel men.

WANTS HIS MONEY BACK.

Owensboro, Ky., Jan. 20.-The Roberts Tobacco Co. of Henderson, and Collector E. T. Franks, of this city, to recover \$1,196.10 tax the company has paid on its manufactured tobacco since August 28, 1899, and which tax was paid under protest.

TO PREVENT WATERING STOCK.

Frankfort, Ky., Jan. 20.-Senator Carter introduced in the house Friday a bill to prevent railroad companies from watering stock. The bill was recommended by W. J. Bryan in his speech here Wednesday and is practically a duplicate of the Texas law on this subject.

KILLING OVER POLITICS.

Middleboro, Ky., Jan. 20.-The grand jury of Lee county, Va., has indicted Evan Bledsoe for the killing of Capt. John M. Hays on an action day. Hays was shot by Bledsoe on account of political differences.

Owensboro, Ky., Jan. 20.-A company has been formed at Louisville to raise Holstein hares. A big farm has been inclosed with a wire fence, and the rabbits will be raised on a large scale.

KENTUCKY LEGISLATURE.

A Synopsis of the Debits of the Kentucky House in the Senate and House of Representatives.

Frankfort, Ky., Jan. 18.-Senator Mr. Howard offered a resolution instructing the committee on the case of governor and lieutenant governor to take all the time necessary in order to arrive at a full, fair and just conclusion, and to hear all of the evidence of both sides. In the senate Mr. Carter presented the report of the judiciary committee on the resolution of Senator Howard for preferring charges of disqualification against the three senate members who are sitting on the committee trying the contest for governor and lieutenant governor.

Senator Howard objected to the report being filed. Carter said the other side was playing for delay. He demanded a vote. The result was a tie, and Lieut. Gov. Marshall voted with the democrats to take up the report at once. The report was then read. It says there is no foundation for the charges in the Taylor and Marshall affidavits.

The senate adjourned without reaching a vote on the report.

HOUSE-NOT IN SESSION.

Frankfort, Ky., Jan. 18.-Senate-Instructing the committee on the case of governor and lieutenant governor to take all the time necessary in order to arrive at a full, fair and just conclusion, and to hear all of the evidence of both sides. This resolution was brought forth to meet the complaint of Gebel's attorneys that the interference of outside events had cut off much of their testimony. In the debate on the floor Gebel and other Gebel leaders opposed the resolution, but a large number of democrats broke away from party line and the resolution finally passed by a vote of 70 to 14.

Bills were introduced as follows: Regulating sanitary conditions in factories and prohibiting minors under 18 working in any factory or shop where an enemy wheel or other means of polishing is employed; free library bill. It provides that the council in cities of the third, fourth, fifth and sixth class shall levy a tax not to exceed 10 cents on \$100 for the maintenance of said library; prohibiting trading stamp companies.

ONLY ONE CURE FOR SCURF.

S. S. S. is the Only Remedy Equal to this Obsolete Disease.

There are dozens of remedies recommended for scurvy, some of them no doubt being able to afford temporary relief, but S. S. S. is absolutely the only remedy which completely cures it. Scurvy is one of the most obstinate, deep-seated blood diseases, and is beyond the reach of the many so-called purifiers and tonics because something, not a mere tonic is required. S. S. S. is equal to any blood trouble, never fails to cure Scurvy, because it goes down to the seat of the disease, thus permanently eliminating every trace of the taint.

The serious consequences to which scurvy leads should impress upon those afflicted with it the vital importance of waiting no time upon treatment which cannot possibly effect a cure. In many cases where the wrong treatment has been relied upon, complicated glandular swellings have resulted, for which the doctors insist that a dangerous surgical operation is necessary.

Mr. H. E. Thompson, of Millersville, Ont., writes: "A case of scurvy broke out on the glands of my neck, which had to be lanced and caused me much suffering. I was treated for a long while, but the physicians were unable to cure me, and my condition was as bad as when I began their treatment. Many blood remedies were used, but without effect. Some one recommended S. S. S., and I began to improve as soon as I had taken a few bottles. Continuing the remedy, I was soon cured permanently, and have never had a sign of the disease to return." Swift's Specific—

S. S. S. FOR THE BLOOD

is the only remedy that can promptly reach and cure obstinate, deep-seated blood diseases. By relying upon it, and not experimenting with the various so-called tonics, etc., all sufferers from blood troubles can be promptly cured, instead of enduring years of suffering while gradually undermining the constitution. S. S. S. is guaranteed purely vegetable, and never fails to cure Scurvy, Eczema, Cancer, Rheumatism, Contagious Blood Poison, Boils, Tetters, Pimples, Sores, Ulcers, etc. It acts upon S. S. S., nothing can take its place. Books on blood and skin diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Georgia.

A NEW WEAPON OF WAR.

The French Mitrailleuse Described—Mounted in Three Different Ways.

The first specimens of the new model of mitrailleuse which is being manufactured at the government arsenal at Puteaux are nearly ready, and in a few weeks' time will be at the disposal of the Alpine corps, which is to be the first regiment to receive them.

The new weapon, which can be easily taken to pieces, is formed of a single barrel secured in front of the receiver, the mechanism of which is said to be exceedingly simple. The cartridges are attached to a revolving brass band which is worked automatically, each shot that is fired bringing the next carriage into position. The cannon is provided with a butt not unlike that of an ordinary rifle, which is steadied in the same way as a rifle butt against the shoulder of the artilleryman who is firing. Its total weight without the supports is a trifle over 50 pounds.

Two men are required to fire this mitrailleuse, one the other to point it. It can be fired, however, by one man in case of necessity, though of course at a slower rate. When comparatively careful aim is taken a hundred shots can be fired a minute, but if desired from 500 to 600 shots a minute can be fired. The cannon comprises an apparatus designed to prevent it growing hot. It will be mounted in three different ways, according as it is intended for use in naval warfare, in mountainous districts or for ordinary field firing. In this latter case it is provided with shields to protect those working it against rifle fire.—Fall Mail Gazette.

A Hint for Travelers.

In his prime the late Mr. John Cook, the great tourist agent, was a man of iron frame. But when years of rail road traveling, which averaged annually some 40,000 miles, produced certain alarming symptoms, he made a discovery that may be worth giving to the public. He found that the threatened trouble, something spinal, disappeared when he lay down with his back to the engine. He is always thereafter faced it, and that the principle is sound will be borne out by others whom he advised to do the same. All who are called upon to do much railway traveling will be wise to sit "facing the horse."

Danger Signals!

Do you take cold with every change in the weather? Does your throat feel raw? And do sharp pains dart through your chest?

Don't you know these are danger signals which point to pneumonia, bronchitis, or consumption itself?

If you are ailing and have lost flesh lately, they are certainly danger signals. The question for you to decide is, "Have I the vitality to throw off these danger signals?"

Don't wait to try SCOTT'S EMULSION "as a last resort." There is no remedy equal to it for fortifying the system. Prevention is easy.

Scott's Emulsion

prevents consumption and host of other diseases which attack the weak and those with poor blood.

SCOTT'S EMULSION is the one standard remedy for inflamed throats and lungs, for colds, bronchitis and consumption. It is a food medicine of remarkable power. A food, because it nourishes the body; and a medicine, because it corrects diseased conditions.

NEWS IN KENTUCKY.

INDICTED FOR MURDER.

Col. Colson held for the Killing of Mitchell D. Scott at Frankfort by the Grand Jury.

Frankfort, Ky., Jan. 22.—The grand jury investigating the Colson-Scott tragedy in the Capitol hotel made a verdict, indicting Col. Colson on two counts for wilful murder and on two counts for carrying concealed weapons. The first two indictments charge him with murder in the following language:

"The said David G. Colson in the county of Franklin, on the 16th day of January, 1899, and before the reading of the indictment, did unlawfully, wilfully, feloniously, with intent to kill, with a pistol, a deadly weapon loaded with powder and leaden ball, shoot, wound, kill and murder one Mitchell D. Scott."

The grand jury asked for further time to investigate. Other witnesses will be examined in the afternoon, and it is expected that the grand jury will return a verdict on the charges against Colson and Scott.

Colson's condition is somewhat improved, and fears as to his losing the wound arm are no longer entertained by his physicians. The news of the indictments was carried to him at once, but he manifested no surprise, as it was understood that he expected the indictment. He was taken to the hospital to be examined by the grand jury.

Golden Growing Better. Louisville, Ky., Jan. 22.—The condition of Capt. Owensboro, Ky., Jan. 22.—The result of the autopsy on the remains of Charles Bailey, reported as having died on January 9 of smallpox, resulted in the coroner's jury returning a verdict to the effect that Bailey came to his death by wounds inflicted on his head with some blunt instrument. CONGRESS WORK.

Forecast of the Proceedings of Both the House and Senate for the Week.

ROBERTS' CASE TO BE DISPOSED OF.

Three Days Likely to Be Consumed in Speech Making Before a Vote is Reached.

He Will Not Be Permitted to Sit in Congress—Quay's Contest Case to Be Brought Up in the Senate.

Washington, Jan. 22.—The feature of the proceedings in the house this week will be the consideration of the case of Brigham H. Roberts, the Mormon representative-elect from Utah. The case has attracted intense interest, both the majority and minority of the committee which investigated the case agree that Mr. Roberts should not sit as a member of the house on account of alleged polygamous practices, there will be a struggle over the question of his presence, upon which the committee has split.

The case will be called up on Tuesday, and two, possibly three, days will be devoted to it. The majority of the committee holds that Mr. Roberts should be expelled, while the minority holds that he should be seated and expelled, basing their argument for this course upon the ground that Mr. Roberts possesses all the constitutional qualifications for membership, and that any attempt to exclude him upon the theory that congress has

power, and, as this contest is a privileged question, it is not likely to receive early attention. Senator Quay, who is in charge of Mr. Quay's case, says he will ask that the case be pressed to an early decision in the senate. The Samsen treaty will also be taken up again in executive session on the motion of Senator Jones, of Arkansas, to reconsider the vote by which it was ratified. The treaty has been already returned to the senate by the president to await the presentation of the Arkansas senator's motion.

INTER-FAMILY ROW.

Three Italians in New York City Shot to Death by Three Members of Another Italian Family.

New York, Jan. 22.—Three Italians of one home were shot to death in an inter-family row which began in an Italian tenement house on East 111th street, and ended in one of the worst Sunday brawls the east side has seen for some time.

Antonio Colletti, 37 years of age, married, was shot through the lung and died in his truck. Casper Colletti, 19 years of age, his brother, was shot in the breast and died shortly after being taken to Bellevue hospital; and David Salvatore, 40 years of age, a cousin of the Colletti, was shot in the stomach and died in the hospital a few hours afterward.

Vincenzo Spinella and his son Frank, 17 years of age, have been arrested and charged with the murder, and the police are still searching for Frank Spinella, brother of Vincenzo, who also played a part in the tragedy.

Half Brothers Lynched. Ft. Scott, Kan., Jan. 22.—Geo. Silbeck and Ed Meeks, half brothers, who were convicted of murder here last week, were lynched by a mob in the county jail yard here.

THE CHICAGO DRAINAGE CANAL.

Shows the water as it tumbled over the bear-trap dam at Lockport on its way to the Mississippi, when the canal was opened.

the power to add to those qualifications would establish a dangerous precedent that might return to Congress in the future. Mr. Littlefield, of Maine, and Mr. DeArmond, of Missouri, who presented the minority report, will make a strong fight and say they believe they can convince a majority of the house that the course they advocate is the proper one to pursue. The majority of the committee on the other hand are confident that they will be backed by a majority of the house. Mr. Roberts is expected to make a plea in his own defense. Should he be seated in accordance with the contention of the minority a resolution to expel him will be immediately offered and this doubtless will carry by an almost unanimous vote, although the majority in their report have insisted that once seated a member can not be expelled for acts committed before he was a member of the house.

Friday will be devoted to eulogies upon the life and public services of the late Vice President Hobart. The senate will begin this week will devote itself almost exclusively to speech making. A variety of subjects will be covered. The financial bill will remain the unfinished business, but the senate will not be held strictly to its consideration. Several set speeches probably will be made upon it, among those which are expected to speak being Senators Cockrell, Daniel and Allen. An announcement has yet been made of speeches on the alternative side of the measure, but now that a day has been fixed for a vote it may be expected that some of the friends of the bill will speak in its defense.

The first speech of the week will be made immediately after the close of the routine business by Senator Pritchard on his resolution declaring the proposed amendments to the constitution of North Carolina to be in contravention of the federal constitution. He will be followed by Senator Turner in a prepared speech on the Philippine question. Tuesday Mr. Hoar will address the senate on the application of the constitution of the United States to Porto Rico and the Philippine archipelago. He will be followed on the same date by Mr. McNary with a speech on the North Carolina question. The two reports on the Quay contest will be presented early in the

EARTHQUAKE IN MEXICO.

It Was First Felt Along the Pacific Coast, and Travelers across the Country Eastward.

Colima, Mex., Jan. 22.—An earthquake shock here here at a quarter of midnight Friday and assumed serious proportions at Tequila, many houses being badly injured. A great deal of light construction wrecked. There was great consternation and people rushed into the streets, some barely escaping with their lives. Seven people were killed outright and 60 were wounded and are being cared for by the local surgeons.

It was reported that the volcano had burst into eruption but it now appears that the phenomenon was confined to subterranean manifestations. Local scientific men believe that the earthquake traveled from under the Pacific ocean and that when news reaches here from the coast there will be interesting details. The governor of this state has appointed a commission to inspect the churches and public edifices, while owners of houses injured in the earthquake will be compelled to put them in condition of security. Quiet has returned.

Repetition of Shocks Feared.

Guadalajara, Mex., Jan. 22.—At midnight Friday an earthquake shock cracked the aciers and stonework of the state palace and portico of the university and the Degollada theater, the latter one of the most massive structures here. The church of San Francisco and San Jose were damaged. The government has closed Sagrario church, fearing the dome will fall in. Carmen barracks was badly damaged and news from Zapotitan and Sarula state that several houses were demolished. The shock was felt severely at San Luis, on the Pacific, and no less underground were heard rumbling the hoarse rumbling of the earth. A heavy sea was forecasted by the astronomer predicts a repetition of the shocks.

Light at Vera Cruz.

Vera Cruz, Mex., Jan. 22.—The earthquake traveled across the country, reaching here just after midnight Saturday morning. The shock was comparatively light here.

Our Glorious Country!

The Land of the Free and the Home of the Brave.

Have You Watched Its Marvelous Growth? If Not, The Weekly Enquirer Wants You to Study the Strides It Has Made.

Wants, also, that You Should Become a Participant in its Profits.

The Census of 1900 will be taken in June next. Under the law of Congress the returns from cities of over 8,000 must be taken and completed within two weeks from the first day of June, 1900. All other returns are to be made by the first of July, 1900. The returns will then be sent to the Director of the Census in Washington, D. C., to be counted. The count of the population will then begin and will be rushed to a completion as fast as more than a thousand clerks, using electric adding machines, can do the work. In order to fix the public mind on the growth of our glorious land THE WEEKLY ENQUIRER offers inducement to subscribers to participate in a problem of mathematics.

The first census of the United States was taken in 1790. Since then it has been taken every succeeding ten years. The result of the population of each census has been as follows:

Year	Population	Year	Population	Year	Population
1790	3,929,211	1840	17,069,453	1870	38,558,371
1800	5,308,322	1850	23,191,875	1880	50,155,783
1810	7,260,138	1860	31,443,321	1890	62,622,550

Here you have the figures of a basis of calculation. The problem now is: What will be the population of the United States, excluding recent acquisitions, but the total of the following States and Territories and the District of Columbia, viz.:

ALABAMA,	KANSAS,	NEVADA,	TENNESSEE,
ARKANSAS,	KENTUCKY,	NEW HAMPSHIRE,	TEXAS,
CALIFORNIA,	LOUISIANA,	NEW JERSEY,	UTAH,
COLORADO,	MAINE,	NEW YORK,	VERMONT,

ILLINOIS,	MISSOURI,	RHODE ISLAND,	
INDIANA,	MONTANA,	SOUTH CAROLINA,	
IOWA,	NEBRASKA,	SOUTH DAKOTA,	

According to the census of 1900? We want you to get out your pencils and slates and solve the problem. Of course it is not the expectation that any of THE WEEKLY ENQUIRER subscribers can accurately determine what the United States population will be in 1900, but we want you to make an educated guess, with a careful study of the figures of all previous census tables before you, to closely reach an approximate.

THE WEEKLY ENQUIRER is anxious to engage all the subscribers in a study of their own country. To this end it has hired in the safe of The Cincinnati Enquirer Company cash amounting to \$25,000. It will, for solutions, receive of the population of the United States, to be verified by the Director of the United States Census, give as follows:

To the First Nearest Correct Guess Received	\$3,000.00
To the Second	1,500.00
To the Third	750.00
To the Fourth	500.00
To the Fifth	250.00
To the Sixth	150.00
To the Seventh	100.00
To the next 10, each \$50, amounting to	1,000.00
To the next 20, each \$50, amounting to	2,500.00
To the next 100, each \$25, amounting to	2,500.00

To the next 1,530, each \$5, amounting to	7,650.00
Total Number of Prizes, 2,197, amounting to	\$45,000.00

In case of a tie, the prizes are to be equally divided. Guesses on above propositions will be accompanied by a year's subscription to THE WEEKLY ENQUIRER. You can guess as often as you care to include subscription price to THE WEEKLY ENQUIRER. This contest will close a month before the result of the census of the population of the States and Territories herebefore named will be known and officially certified by the Director of the Census at Washington, D. C. THE ENQUIRER will give a month's advance notice of the date when all guesses will be stopped.

SEND ALL ORDERS TO ENQUIRER COMPANY, CINCINNATI, O.

It's up to the People.

Less than a year remains in which to gather facts, and information that will influence your vote for the next president of the United States. That grievous wrongs have been committed, and grave errors allowed to exist without effort at correction, is evidenced by the speech, writings, and comments of eminent statesmen and jurists; congressmen and leading men of business; professors and clergymen in every state.

Party affiliations have been ignored in the outcry against trusting aside the safeguards of our fathers and rushing pell-mell into the affairs of Europe. The situation is a deplorable one if not alarming; as is also our domestic affairs dominated by gigantic trusts.

The evils are not of spontaneous growth! They are the result of years of labor and expenditure of millions of dollars! Beginning with the displacement of American silver for English gold, the cunning of England's diplomacy in shaping the destiny of our Republic is apparent to any ordinary observer seeking the true inwardness of events.

The Cincinnati Enquirer has frequently called attention to each and every move as it was transpiring, and during the campaign of 1900 will present its readers with a truthful array of facts that will be extremely interesting and startling.

No fair-minded American, be he Republican, Democrat or of other political faith, can afford at this critical time to ignore the truth. Partisan prejudice, with the trusts as dictators, is a far more degrading slavery than that which existed previous to the Civil War of '64.

Trusts in the United States alone have a representative capital greater than all the gold and silver in the world. These will spend many more millions of dollars to suppress truth and facts and mislead all who fail to look beyond their plausible deceptions. Read the Enquirer and you will be able to discern the truth and combat falsehood. A victory for Trusts and the McKinley Administration in 1900 will end the era of greatest good to greatest number. Watch carefully!

Ayer's Hair Vigor

What does it do?
It causes the oil glands in the skin to become more active, making the hair soft and glossy, precisely as nature intended.

It cures Baldness
It makes a better circulation in the scalp and stops the hair from coming out.

It Prevents and it Cures Baldness
Ayer's Hair Vigor will surely make hair grow on bald heads, provided only there is any life remaining in the hair bulbs.

It restores color to gray or white hair. It does not do this in a moment, as will a hair dye; but in a short time the gray color of age gradually disappears and the darker color of youth takes its place.

Would you like a copy of our book on the Hair and Scalp? It is free.

Candy-Pull Christianity.

San Macaron is rather severe on what he calls "candy-pull" methods of Christianity. He sees abundant evidence that we are deteriorating along religious lines, and that convictions are not so real or so deep as in the days of our Puritan ancestors. "There is, doubtless, a great deal of truth in Dr. Watson's contention. The modern church does resort too much to oyster suppers, fairs and entertainments for the support of the gospel and the spread of missions. If Christian men were more spiritual, church methods would be less costly, and concentrated giving would preclude the necessity of enlisting the oyster in the financial affairs of the kingdom, and place the burden of church support so largely on the individualist would."

"We believe that entertainments and socials have their legitimate functions in church life. Indeed, we believe they are a stern necessity to the existence of some churches as now constituted. We have no doubt that the 'kitchen' is a wise provision in the equipment of a modern church, and that church support are very excellent and beneficent affairs. But we are equally confident that it would be far more honest and honorable in us to support the church by direct, systematic and proportionate giving, rather than resort to the catch-penny and vicarious methods so universally in vogue. If Christians gave as God prospers them, there would be no death of means for church support.—The Inland.

A New Industry.

The King Filter Company has been organized in this city. Its officers are: Dr. B. F. Thompson, President; Dr. J. A. Shirley, Secretary and Treasurer.

On January 2nd, Mr. King secured a patent for a filter and at once exhibited the above gentleman in the enterprise. The chief points of this filter is that it is automatic, self draining and self-cleaning.

For the present the business office of the firm will be in Dr. Shirley's office. To appreciate its merits you should see one of them.
